from falling off except temporarily below the opening level of the week, and the close is higher, with the tone strong.

In business circles there has been considerable disturbance, due mainly to important falliures in dry goods departments in New York and to the closing of the doors of a prominent banking firm in Indianapolis, with consequent excitement and suspensions there and elsewhere in Indiana.

A feature just now at variance apparently with the tendency of the times is the advance in the price of coal and the report that the production is being fully taken at the advance, and that there is to be no restriction in production, there being no need for it, during August.

The crop reports from the west continue to be of the most encouraging usture, and if the good weather continues the yield of wheat and corn in 1884 will probably exceed that of any former year.

The improved tone of confidence in Wall street has been well shown in the small effect produced there by the two failures in the dry goods trade. The conclusion is evidently drawn that prices have already touched bottom, and that a few meroantic failures are not likely to send them back again.

The short element in the market is still important, as evidenced by the borrowing rates for stock, and while some of the oldest and heaviest bears covered their principal shorts some time ago, the immense profits realized on that side probably tempted many small operators to go short at comparatively low prices among the active list of stocks. St. Paul has recently been most conspicuous, and while the sales on trading from day to day are very large, it would not be surprising if the remarkable decline in St. Paul to 68½ in June had induced purchases by some strong parties who intend to stay in.

The Pacific railroad shave not been materially better, although the adjournment of congress Circuit Court—Justice Hagner.—Stewart vs.

The Pacific railroads have not been materially better, although the adjournment of congress will give the stock a chance to recover whenever the earnings and the conditions of the companies stimulate buying.

The Vanderbilt party is inactive and stock is not prominent.

The Vanderbilt party is inactive and stock is not prominent.

Lackawanna is strong on every rally. 
At the close of the week prices were very strong, led by St. Paul, Northwestern, Lake Shore, New York Central, Lackawanna and Missouri Pacific.

Cotton speculation for future delivery during the week has been only moderately active, but prices have somewhat improved, especially for early deliveries.

Stocks in the New York and southern markets have became quite reduced.

The export movement has been considerable and the receipts at the ports hardly worth recording, but the home demand has been less active.

The Atlantic cotton mills are to stop for two weeks, and it is expected that others will follow the example. BATURDAY'S REVIEW.

SATURDAY'S REVIEW.

Telegrams from leading cities report business very dull. At Chicago, St. Louis, St. Paul, and Clincinnair rates discount are more favorable, but in Kansas the rate is 12 per cent, and it single name paper is generally refused.

Restriction in loans is necessary to obtain funds to move crops, and in the northwest considerable anxiety is felt on this account.

The advance in St. Paul was the main conversation has evening, and it is reported that the large short interest increased in this stock tyesterday.

The market opened to-day it of 34 higher. St. Paul and Northwestern leading the advance. The bulls threatened to force St. Paul to 75 and Northwestern to 95 before closing hour. Shorts covered considerably in these stocks during first hour. Union Facific was strong on reports of flowen buying in large lots. Erie seconds active and advanced 155 before noon. The advance held until 1:30 when a fractional decline followed till nearing 2 o'clock. St. Paul railled, and the market recovered. After 2:15, under realization sales, the active stocks lost it to 34, but the closing was dull and fairly stoady in tone.

Bonds active, Erie seconds 1½ higher. Others gained about 34.

NEW YORK, July 19.—The upward movement which set in at the stock exchange yesterday made further progress this morning. The lavorable crop advices and the scarcity of stocks were causes at work. In the early trading the market was quite active and prices advanced sharply. The bears became alarmed by the rapidity of the advance and rushed in to buy, but owing to the small supply of floating stock succeeded in covering, but a comparatively small amount of their outstanding contracts. The favorable bank statement also had its influence.

At the opening prices rose ½ to 1½ per cent. Missouri Pacific leading with sales up to 93½, the progress of the day and week. Union Pacific leading with sales up to 93½, the first call there was a reaction of ½ to 5½ per cent, but near midday speculation and quincy to 116½. Northwest to 35½, Proferred to 125½, bt. Paul to 74½, Louisville and Nashville to 13½, Missouri Pacific to 99. New York Central to 194, Northern Pacific per cent, but action of the day and week. Union Pacific to 99. New York Central to 194, Northern Pacific per cent, but action of the day ranged ½ to 1½ per cent. Northwest to 46, and Omaha preferred to 87½. In the afternoon the market was lower on realizations. The decline from the highest point of the day ranged ½ to 1½ per cent. Northwest, St. Paul Lackswanna, Lake Shore, and New York Central leading the downward movement.

Natianals vs. Bostons, Capitol park, 4:30.

December by the influence of labor organizations without regard to politics, tries to belittle the action of the Federation of Labor in this district in passing resolutions condemnatory of the democratic nomines for president of the United States.

He says to a Star reporter that it was against the rules of the unions to meddle with politics at all. If this is so, Mr. Edmonston, why did you misrepresent the Brotherhood of Carpenters and Joiners of America in presenting to the national labor congress, hold in New York Aug. 21, 1883, the following resolution:

Resolved, That a committee be appointed to attend the next national conventions of the two great political parties, and in the name of the organized workmen of the United States demand the incorporation in their platform of principles their position on the enforcement of the eight-hour law, the incorporation of national trade organizations, and the establishment of a national bureau of labor statistics.

Why did you misrepresent the men who sent you to that labor congress and vote for the following resolution?

"Resolved by the Poteration of Trades and Labor Unions of the Inited States and Canada in Congress assembled, That the thanks of this assembly are due and are hereby tendered to Hon. Daniel W. Voorhees, United States senator from the state of Michigan, for their very eloquent and many defense upon the floor of the United States senator from the state of Indiana, and Omar D. Why did you sign a report of the legislative committee of that labor congress recommending the following?

"We desi Mrs. Susic E. Harley, wife of J. J. Harley, a clerk in the treasury department, died at the insane asylum at 10:30 o'clock last Saturday insane saylum at 10:30 o'clock last Saturday night. She was nearly 25 years old. Mrs. Harley was, before her marriage. Miss Susie E. Porter, and by that name will be remembered affectionately by very many young people who were her pupils during the ten years in which she was a school teacher in this city. She was possessed of those peculiar traits of character, that sympathy with child life and love and kindness for children, which made her an admired teacher and endeared her to her pupils. She became a teacher when little more than a child herself. She was the daughter of Mr. Nicholas E. Porter, who was killed by an accident years ago. Her mother died the same year leaving her to take the place of both parents to a family of younger children, a charge which she nobly fulfilled. Mrs. Harley's mind became affected shortly after the birth of her child, an infant a few weeks old, which survivas her. She had been an inmate of the asylum for aix weeks, but she became perfectly sane feveral days before her death. A large number of friends will sincerely mourn her death. Mrs. Harley received at the asylum the most unremitting attention from Dr. Lyon and the nurses, who treated her as if she were one of their own family. Her sisters were with her at the time of her death.
